"Small Plates" will be the theme for our June Wine Dinner. Weather permitting we would like to host this event on the patio. Our goal is also to make this an interactive evening and to prepare these items "live" for you. It will be a little less formal from our usual theme. Please dress accordingly. The format of wine service will be a bit different for this as there are so many courses as well. It will still consist of five wines.

~Hope to see you in June
